

FirstLookTM

SenX Technology FirstLook Sensor

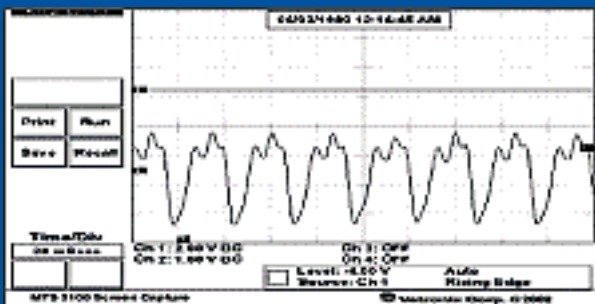

Automotive Injector Diagnostic Sensor

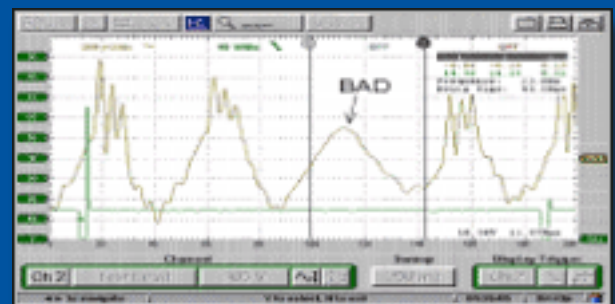

The FirstLook Injector Sensor is connected to the fuel rail using your high pressure fuel rail test kit adaptors

As supplied, the ADS ES 100 works with 90% of the fuel pressure test kits currently on the market

Using the FirstLook Injector Diagnostic Sensor allows the use of an Automotive Digital Storage Oscilloscope as an electronic injection test unit, extending its capabilities and enhancing its value to you

Six good injectors on a Jeep Cherokee capture

Bad injector on four cylinder Honda capture
