

## **How to Reset the Oil Service Light on 2008-2016 Ford Kuga**

To turn off the Oil Service Light on 2008 to 2016 Ford Kuga models, follow the instructions below:

- Turn off the ignition
- Close all doors.
- Turn the ignition key to position II, If your Kuga has push-button start, press and hold the Start button for two seconds without touching the brake pedal.
- Next, simultaneously press the accelerator pedal and the brake pedal and hold for a minimum of 20 seconds, until a **“Service: Oil reset in prog.”** message shows on the instrument cluster display.
- Continue holding the accelerator and brake pedals until the display says **“Service: Oil reset complete”**.
- The oil change reminder indicator will turn off. This confirms that the reset procedure has been correctly completed.
