## **VY Commodore Service light Reset procedure/Service Due Indicator Message**

A service reminder message is built into the vehicles on board Trip Computer. 1,000 Km before the service is actually due; a reminder message will appear giving time to arrange for the service to be carried out. This message will be shown for 10 seconds when the ignition is switched ON or OFF until the trip computer is reset.

When the service is overdue;  
The message will flash for 10 seconds when the ignition is switched ON or OFF.

### Resetting Procedure

1. With the ignition OFF, press and hold the up and down buttons of the Trip Computer.
2. Turn the ignition ON while holding down both buttons.
3. Keep both buttons held in for 3 seconds Approx..
4. The service menu appears and asks if you want to reset.
5. Press and hold the 'Set' button for more than 3 seconds.
6. Press the 'Mode' button
7. Switch ignition off.
