Software, Built In Printer

Revolutionary test & service equipment for the latest in fuel system technology

European Quality

GS8000

Gasoline injector test & service bench
GDi, FSi, Sidi capable
Includes volume test, ultrasonic clean, backflush
Exclusive manifold set incl side feed adaptors

ITB.4Rx

Fully automatic diesel
specialist level
test & service bench
for 4 common rail
injectors.

A VDO Authorized Test Bench

GD1.Rx

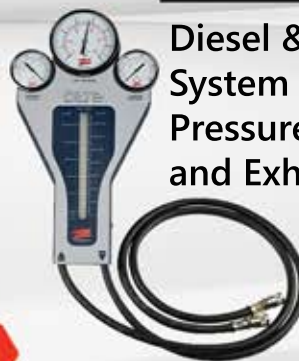

High Pressure test &
service bench for 1
gasoline injector.
Up to 450 Bar.
GDi, FSi, Sidi, HPI

DS1Rx

Full Automatic or Semi
automatic test & service
bench for 1 common rail
diesel injector.

FST & FST-HF

Diesel & Gasoline Fuel
System Tester. Test fuel
Pressure, fuel flow, vacuum
and Exhaust back pressure

Optional high flow
capability for racing
& performance
applications (FST-HF)

CARBON ZAPP

**Advanced Test & Service Solutions for the
Latest Gasoline and Diesel Injection Systems**

Security System Tools

TDB003

- Proximity Smart Key System Tester
- Quickly and easily Test keys, internal and external antennas, remote controls
- Supports 9 different tests

*Designed & Owned
in UK*

The Diagnostic BOX

TDB008

- Parking Sensor system tester
- Allows a single person to test rear parking sensors from the drivers seat
- Fast and simple operation

Key Cloning

TDB500 & TDB1000

Key generating tools
Simple Operation
Generate all new or
additional keys. Pin Extractions

Key Programming

PF Diagnose/DrewLinq
PC Based diagnostic scan tool
package for USA Truck
systems includes
9pin & 6pin
Deutsche connectors.
Great value for money

High Pressure Smoke Machine
Mobile Leak detector
12v power supply,
range of adaptors
Easily diagnose
Intake Leaks
& test at higher
pressure when required
